

Netwrix Auditor

Audit and compliance made easy

What are we talking about...

Data Growth

Increasing data generation ceases the ability to identify data that needs protection

DATA

has become the focal point of security efforts

Hybrid Infrastructures

Maintaining unified data security controls is a challenge

Increasing Threats

Breaches are becoming more frequent and receive more publicity

Evolving Compliance

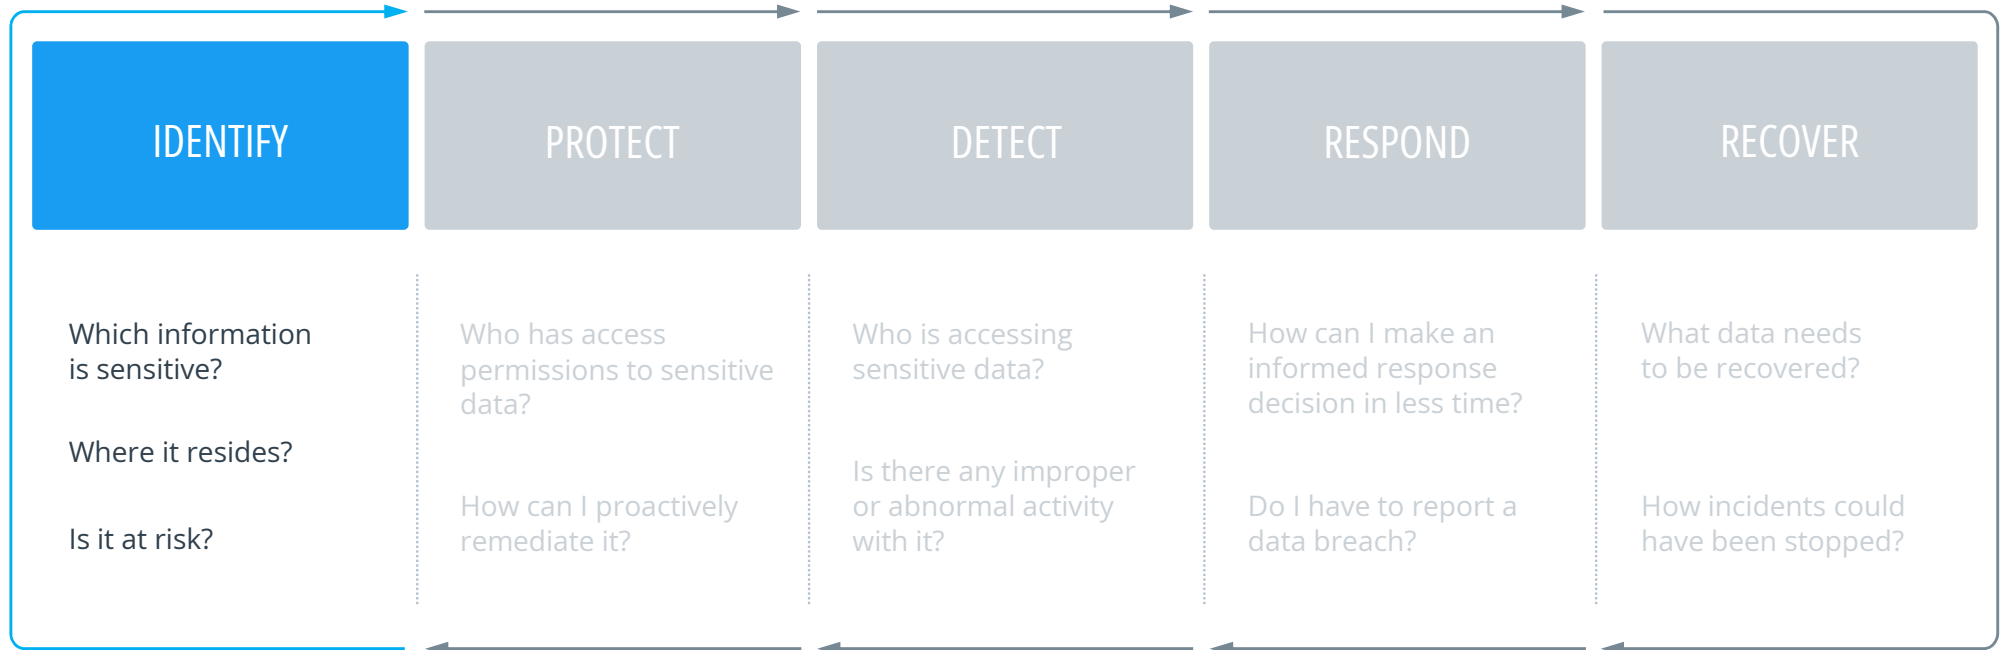

New regulations impose stricter data confidentiality and privacy requirements

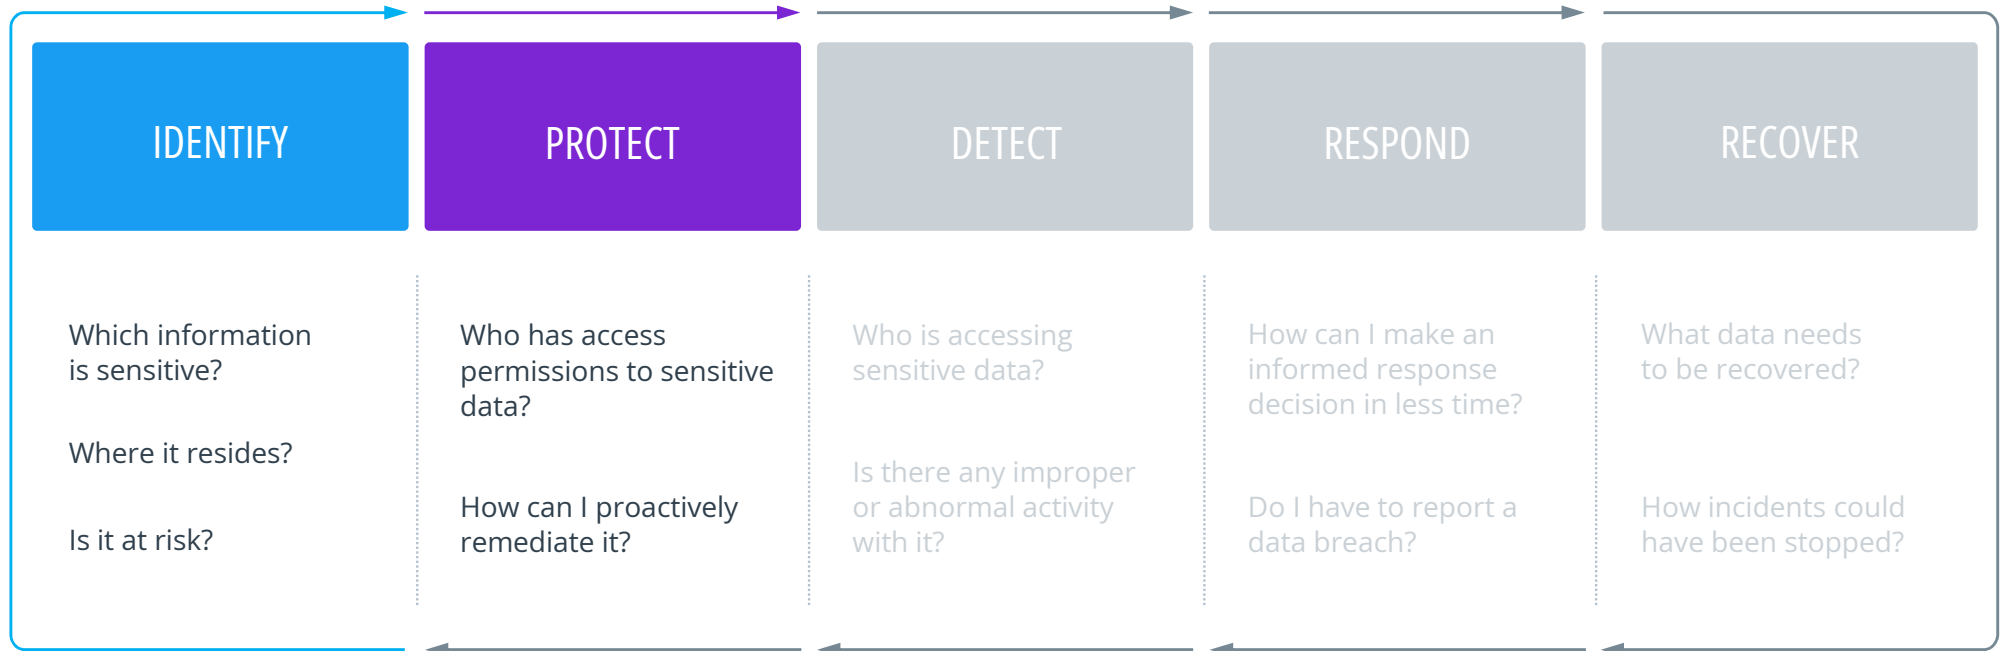

Board Visibility

Executives are more aware and want cybersecurity spending to be justified
